PROFILE

BSc.CSIT student with a strong interest in frontend web development and hands-on experience building interactive web applications using HTML, CSS, JavaScript, React, and TypeScript. Experienced in developing practical projects while focusing on clean, responsive, and user-friendly interfaces.

SKILLS

Frontend: HTML5, CSS3, JavaScript, TypeScript, React.js, Tailwind CSS

Programming Concepts: ES6+, DOM Manipulation, Object-Oriented Programming, ES6 Modules, Asynchronous JavaScript, REST API Integration

Tools & Technologies: Git, GitHub, Vite, Axios, React Router, Local Storage

Soft Skills: Teamwork, Willingness to Learn, Problem Solving, Communication, Adaptability

PROJECTS

Amazon Clone — *HTML, CSS, JavaScript*

- Built a multi-page e-commerce frontend using HTML, CSS, and vanilla JavaScript.
- Implemented product rendering, shopping cart, delivery options, checkout, order history, and package tracking.
- Used JavaScript classes, ES6 modules, Fetch API, Local Storage, asynchronous programming, and basic Jasmine testing.

Chatbot Application — *HTML, CSS, JavaScript, React, Tailwind CSS*

- Built interactive chatbot interfaces using JavaScript and React with component-based architecture.
- Implemented chat message handling, user input, state management, and dynamic message rendering.
- Practiced React components, props, state, event handling, hooks, and responsive styling with Tailwind CSS.

Blog Application — *React, TypeScript, Tailwind CSS, Hono, Prisma*

- Developing a full-stack blog application with separate frontend, backend, and common modules.
- Building the frontend using React and TypeScript with reusable components and a component-based architecture.
- Developing responsive user interfaces with Tailwind CSS while practicing React components, props, state, hooks, routing, and API communication.

Shopora – E-commerce Application — *React, JavaScript, Axios, React Router, Vitest, React Testing Library*

- Developing a modern e-commerce application using React with reusable components and component-based architecture.
- Implemented product browsing, cart management, checkout, order history, package tracking, and product search.
- Integrated REST APIs using Axios, implemented client-side routing with React Router, and wrote unit and component tests using Vitest and React Testing Library.

Collaborative Whiteboard System — *Next.js, Node.js, Express, PostgreSQL, Socket.IO*

- Developed a collaborative whiteboard application as part of a three-member final-year university project.
- Worked with the team on shared whiteboard creation, editing, board management, and collaboration features.
- Contributed to the development and documentation of interactive drawing and collaboration functionality.

EDUCATION

BSc.CSIT

Amrit Science Campus (ASCOL)

Dec 2022 – Present

Kathmandu, Nepal

Science +2

DAV College

2020 – 2022

Lalitpur, Nepal
